Congressional Matters.

WASHINGTON, Aug. 2.—Senator
Blair's resolution to provide for the
previous question or some other mode
of limiting debate has been referred to
the Committee on Rules.

In the discussion of his resolution,
Blair said that Senators had spoken
to him, indicating their desire to be
heard before action should be taken in
the matter, and who were not ready to
proceed. He should therefore not
press the resolution this morning. But
he desired to say that he had offered
the resolution, not with special refer-
ence to any pending bill, but with a
feeling that there was a necessity for
the proposed change. The period has
arrived when in the transaction of the
country's business the Senate must
have some way by which the larger
number of important public measures
could be decided. As it now was, the
whole business of the country is at the
mercy of one or two individuals who
might be opposed to a measure; that
the majority was practically under the
control of the minority. Although the
Senate had already spent ten days
upon the tariff bill, only 15 pages had
been disposed of out of a total of 182
pages in the bill, and all great subjects
of discussion, the sugar reciprocity,
etc., were still to come. There was
no reason to suppose, therefore, that
under the existing rules the bill would
be concluded before next December.
He had offered the resolution with a
view, not to any pending measure, but
with the view of a fundamental, radical
and indispensable change in the
parliamentary procedure of the Senate.

Morgan reminded Blair of the long
time ("six or seven weeks") con-
sumed in the consideration of his edu-
cational bill, and said that the time
had not been wasted, as the result of
the discussion was that the bill had
been defeated, just as he hoped the
debate on the tariff bill would result in
the defeat of that measure.

The tariff bill was then taken up,
the pending question being Vest's
amendment to reduce the duty on
decorated china to 50 per cent, ad va-
lorem and on plain white china to 40
per cent, instead of 60 and 55 per
cent, as proposed by the Finance
Committee.

The amendment was discussed pro
and con at length.

Nihilists with Plo ting.

PARIS, Aug. 2.—The *Steele Figaro*
prints a report that a fresh Nihilist
plot against the Czar has been discovered
in St. Petersburg. According to
these reports Professor Coritowsky of
the University of St. Petersburg and a
number of students of that institution,
who, it is alleged, were concerned in
the plot, have been arrested, and many
persons were taken into custody in
Moscow on the same charge. Two
officers of high rank in the Russian
army have committed suicide. It is
supposed they were found implicated
in the conspiracy, and took their lives
rather than undergo arrest and the
punishment sure to follow.

A Powerful and Aggressive Com- pany.

By Associated Press.]

PROVIDENCE, Aug. 1.—It is rumored
here that the Boston and Maine Rail-
way Company is after the New York,
Boston and Providence Railroad. The
most startling feature of the contem-
plated deal is the published statement
that the backers of the Boston and
Maine Railway are the Canadian Pacific.
This line requires for its New
England support a terminus whence
its line of steamers could be run to
New York. As the Boston and Maine
now reaches Worcester, the Providence
and Worcester division of the
New York, Providence and Boston,
could it be obtained, would furnish
the Canadian Pacific uninterrupted
communication between Montreal and
Providence. The Providence & Wor-
cester, together with the Concord and
some Western roads, have long been
members of the Canadian Pacific.
A dispatch line, merging the New York,
Boston & Providence in the Boston &
Maine, would not only mean the control
of the St. Lawrence Steamship Com-
pany's fine fleet, but the latter corporation,
as the road owns the controlling
interest in the boats.

No Revolution in Guatemala.

By Associated Press.]

CITY OF MEXICO, Aug. 2.—Dispatches
from Guatemala state there is no
revolution there. Barrillas is firm in
the belief that the difficulty with Sal-
vador will soon be settled satisfactorily
to Guatemalan interests. Pau, the
Salvadorian representative here re-
ceived a telegram to-day confirming
the report that General Rivas, leader
of the insurrectionists, was captured
and shot, and that quiet is restored in
Salvador. The dispatch also an-
nounces that the Salvadorian troops
have returned to the capital to oppose
General Rivas, who was preparing to
march against the Guatemalans.

ATLANTA (Ga.), Aug. 2.—The Farm-
ers Alliance of the Eighth Judicial

dorsed at its meeting the following:
"To the Hon. M. B. Nicholson, Judge

Arrested for Fraud.

By Associated Press.]

NEW YORK, Aug. 2.—Clement J.
Chandler, treasurer, and William C.
Chandler, Jr., manager of the Erie
Transfer Company of this city, have
been arrested, charged with system-
atically defrauding the company. It
is estimated that they have succeeded
in swindling the corporation out of not
less than \$10,000.

Arizona's Population.

By Associated Press.]

TUCSON (Ariz.), August 2.—The re-
turns of the census supervisor show
the population of Arizona, not includ-
ing Indians, to be 51,000. The three
largest towns are Tucson (5,185), Phoe-
nix (3,115) and Prescott (1,843).

Almost a Fire.

Yesterday afternoon about 3 o'clock
E. J. Stevens, occupying the premises
of Mr. Booton on Sierra street, discov-
ered a fire in an adjoining barn. Some
time prior four Indians, with their
inseparable squaws, were loitering
around the barn, which has an out-
shed for sheltering horses. The fire
was smoldering in the flooring of the
outshed, and had already burned a
hole four feet square. A few buckets
of water settled the business. Mr.
Stevens declares that hereafter he has
no use for "Injuns."

Frank Dunn of Virginia City, who
arrived from below this morning, spent
the day in Reno.

Senator Mitchell on the "Sherman
Bill."

By Associated Press.]

NEW YORK, Aug. 1.—A special from
Washington gives an interview with
Senator Mitchell yesterday on the
effect of the Silver bill. Mitchell is
quoted as saying: "Silver bullion
being one standard, money values will
naturally lead the way to market
prices for all kinds of American pro-
ducts. When we began the discus-
sion of the Silver bill, bullion was
worth 94 cents an ounce. It is \$1 11
to-day, and it is stated that it will
continue to rise till it reaches at least
\$1 15 and probably \$1 20 before it
stops. This is an increase already of
about 25 per cent, in the price of
bullion, and from what I learn through
my mails and telegraph, farm pro-
ducts, taking the country over, are
increasing proportionately. I have no
doubt that when the full effects of the
Silver-coinage law are distributed over
the country, farmers will find them-
selves receiving anywhere from 25 to
50 per cent more for their products
than a few months ago."

Dishonest Hotel Clerk.

By Associated Press.]

SACRAMENTO, Aug. 1.—S. C. Petton
came to this city last night and regis-
tered at the State House Hotel. As
a precaution against possible despolia-
tion by burglars, he took from his
pocket \$120 in coin and handed
the money to acting night-clerk
Andrew Morton for safe keeping.
The clerk marked the package and
the guest retired. After breakfast
this morning the latter presented him-
self at the office desk and was met by
the startling announcement that his
\$125, Clerk Morton and about \$10 be-
longing to the hotel funds had disap-
peared. The coincidence of the sudden
departure of the clerk and the money
gave rise to the presumption that
something was wrong, and the police
are now telegraphing in every direction
for some tidings of Morton.

An Unprecedented Rain.

Special to the GAZETTE.]

TUCSON (A. T.), Aug. 1.—The rain-
fall in this section during the last
three days is unprecedented. All the
streams are flooded, and there was
much destruction to property in the
valley. The Santa Cruz river is a mile
and a half wide opposite Tucson.
Many thousands of dollars' worth of gar-
den truck was lost, and there were
several narrow escapes from drowning.
The river is still rising.

Partial Amnesty.

By Cable and Associated Press.]

PARIS, Aug. 2.—The French Govern-
ment has issued a decree granting

convicted of offenses in connection with
labor strikes. Under the provisions of
a decree fourteen sentences have been
released and the sentences of twenty-
two others were reduced.

"How are we to select delegates to the State and County Conventions?" is a question that is frequently heard. The bosses would no doubt like to put a ticket in the field and have no opposition to it, but lovers of a pure Government look at it a little differently. They are tired of being bossed and nosed around by ambitious individuals who have nothing but their own interests to look after. To those who would like to see none but good men—men who have the best interests of the State, county and party at heart—go, we would suggest that a public meeting be called, and ways and means for selecting delegates be discussed, and in that way get a purely citizen ticket, put it in the field, then everybody turns out the day the primaries are held and see that it is elected.

It is the duty of every citizen of Reno to use his best endeavors to make the coming State Fair a success in every particular. Don't leave all the work to be done by the society's officers, but help the thing out by putting something on exhibition or speaking a good word for the Fair to every stranger you meet, and try to get at least one non-resident to attend. "The gods help those who help themselves," and the GAZETTE hopes to see the community a unit on State Fair matters.

Is it not about time for the candidates for the various county offices to announce themselves, or do they expect to get in on a sneak and not give the people a chance to canvass them at all? Throughout California and other towns in Nevada candidates are announcing themselves through the press, and that is as it should be.

THE Enterprise insists that R. K. Colcord, Esmeralda's candidate for Governor, has not withdrawn from the contest, while the Carson Tribune and Reno Journal contend that he has. If Mr. Colcord is still in the ring, would it not be well to settle the bickerings of those great journals by a card over his own signature?

NEVADA'S STATEHOOD.
The East Warned to Keep Hands Off.

The Ogden Commercial defends Nevada as follows: The proposition to unstate Nevada and relegate her back to a territorial condition comes from the East. The East, however, had better not play with cutlery of this kind. When the General Government begins to monkey with the autonomy of States actually in the Union, trouble will begin. They might conclude that the little patch of ground known as Rhode Island ought not to compete with giants such as New York is now, and other Western States soon will be, and attach her for State purposes to a neighbor.

Then Maine and New Hampshire and Vermont and the rest of the small holdings in the northeast might be compelled to consolidate with Massachusetts for want of requisite population and area, as they are falling behind in the race for empire. Then there is Delaware and New Jersey, little potato patches on Uncle Sam's farm. No telling where the thing will end if it once gets a start. Once a State always a State, unless the territory is abolished, by consent, by the surrounding States and Territories.

DEN BUTLER is reported to be worth \$5,000,000. He has law offices in several cities and a practice worth \$100,000 a year.

MRS. OLIVE BUCHANAN, of St. Louis, is the first woman in the United States to hold the office of United States deputy marshal.

REV. T. DE WITT TALMAGE is a drawing card upon the platform. He is to receive \$10,000 for twenty lectures with Chautauqua assemblies this summer.

ACTING-GOVERNOR TAGGART, of New Hampshire, who was born in 1838 and graduated from Harvard in 1878, is the youngest chief executive in the United States.

JAY GOULD's daily income has been estimated recently at \$7,446. Cornelius Vanderbilt's at \$15,349. John D. Rockefeller's at \$18,715 and William Waldorf Astor's at \$23,593.

A PARIS correspondent says that Mr. Stanley is the color of a cooked olive and his hair is white, but he does not look much aged and has every appearance of being in good health.

GEORGE BANCROFT, who was Secretary of the Navy for a year and a half, the administration of President Polk, is the oldest ex-Cabinet officer, both in age and date of service, now living.

SUPERINTENDENT PORTER, of the Census Bureau, has decided to form a collection of all the newspaper, magazine and periodical publications of every description published in the United States this year.

GENERAL FREMONT is living on Staten Island in retirement, and he is apparently good for many years yet. His form is erect and his eyes have the same flash as when he crossed the Rockies and wrote those enchanting reports which, strictly true as they are, have all the freshness and vigor of a romance.

The accounts of the condition of Mr. Lawrence Barrett recently published are not sustained by private letters, which speak of his early return to the United States. The fact that he has purchased a new play in England would seem to indicate that he is more hopeful of recovery than the reports would indicate.

HENRY IRVING has once more repudiated the notion that he intends to go into Parliament. "Not only," he says, "do the circumstances of the actor's work forbid such a possibility, but the work itself needs a calmer atmosphere than is to be found in the strife of public needs and personal ambition of such a lofty kind."

Mrs. U. S. Grant leads a very quiet life in New York. Her eyesight has become poor and she seldom appears in public except to drive in the park. General Sherman is a frequent and welcome visitor.

Peculiar

In Combination, Proportion, and Process of preparation, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "100 does one dollar." Other medicines require larger doses, and do not produce as good results as

Hood's Sarsaparilla. Peculiar in its medicinal merit, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won the title of "The greatest blood purifier ever discovered."

Peculiar in its "good name at home"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has attained such popularity in so short a time. It

Is Peculiar to Itself. Peculiar in the originality and effectiveness of its advertising, its methods are continually being copied by competitors.

Peculiar in the way it wins the people's confidence, one bottle always sells another.

JOTTINGS.

Do not delay a day longer, but go to E. C. Leadbetter's and purchase your fruit for canning at once. You will find the best kept there.

Patronize the Arcade Restaurant for your Sunday dinner to-morrow, thereby giving the members of your family a chance for a day of rest.

C. J. Brookius is in daily receipt of the choicest California fruit and berries, fresh from the trees and vines; also both imported and domestic nuts.

The Tremont House, situated north of the C. P. track, is the place to find a neat, well-kept quiet resort where a first-class room and bed can always be had.

Miss Emma Gibbs continues to receive the patronage of those ladies and misses who possess with sufficient taste to know how to dress to make themselves attractive.

To-morrow will be the day when J. J. Becker will treat his friends to an extra fine lunch, and his Boca and Sacramento beer will neutralize the effects of the hot sun.

As W. R. Chamberlain is not and does not intend to be a candidate for any office this year, he is able to devote his whole time to the wants of the Riverside Hotel patrons.

Sarsaparilla and Iron water and Orangein by the dozen or ask, the only genuine from Schmidt & Co., Stockton, Cal., at A. J. Thoms, State agent, trade and families supplied.

During this present heated term, those high will ventilated and nicely furnished rooms of the new brick Phoenix Hotel are greatly enjoyed by those capable of appreciating genuine comfort.

There is no article in the line of the best stationery, inks, mucilage, pens and pencils, that cannot be had at C. A. Thurston's news depot. He also carries a full line of both pen and pencil tablets of all sizes.

Reminiscence of the Johnstown Flood.

Rev. H. L. Chapman, pastor of the M. E. Church, Johnstown, Pa., says: "Soon after the great flood, at a time when diarrhoea was quite prevalent I received a box of six dozen Chamberlain's Colic, Cholera and Diarrhoea Remedy sent me by the proprietors, at the suggestion of Hon. Wesley Redhead of Des Moines. As soon as it became known that I had the medicine for free distribution there began a great run on it, which continued until it was about all gone. Every one, so far as I heard from them, testified to its virtues declaring it the best medicine for the purpose they had ever used. Those who got it shared it around with their neighbors so that I am confident your generosity in sending it was productive of great good. We used some of it ourselves and found it not only an excellent medicine for diarrhoea but for all kinds of pain and uneasiness in the stomach and bowels. It has been regarded as the best medicine known here for the diseases it is recommended for. In view of your sending such a large quantity for free distribution among poor people, I think you are entitled to this testimonial in its favor. For sale by Shoemaker & Co.

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. I you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold, or any Throat, Lung or Chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every bottle to refund a trial bottle free at Wm. Pinniger's drug store.

The Great Spring Medicine.

It will be gratifying to all who realize the vital necessity of purifying the blood, to know that Hildner's Rheumatic Syrup can be relied upon as a blood medicine. Mr. B. C. Robinson, of Marshall, Mich., says: "GENTLEMEN—I have suffered intensely from biliousness and rheumatism for over three years and had tried so many remedies that I had lost all faith. Hearing of Hildner's Rheumatic Syrup I bought a bottle and found it helped me. I have now used four bottles, and it has restored my liver and kidneys to healthy action, and done more to purify my blood than any medicine I have ever taken. I am pleased to recommend it as a wonderful blood medicine. Yours very truly, B. C. Robinson, Marshall, Mich."

SOUTHERN CALIFORNIA.

Nevada a Much Better Place in Every Respect.

The Way It Looked to a "Gazette" Representative.

A representative of the GAZETTE has recently made a tour of Southern California, visiting all the towns on the coast line from the Mexican border to San Francisco, including Tia Juana, San Diego, Oceanside, Riverside, Los Angeles, Pasadena, Santa Barbara, San Luis Obispo and other places of lesser note, and he can truthfully say that he did not see in any place he visited a finer climate than Reno—and, in fact, all of Nevada—is possessed of. The great boom to Southern California was inaugurated on climate for a background, and a very poor country in other respects to warrant the inflated values that ruled for three years. Nevada to-day possesses more fine land susceptible of irrigation, and offers ten to one

GREATER INDUCEMENTS FOR CAPITAL.

Than Southern California ever did or ever will. Money invested in lands, storage reservoirs and ditches would give quicker and greater returns than if invested in any California town. This is a pretty broad assertion, but true nevertheless, and while the parties investing it were reclaiming our lands, they could have the privilege of breathing pure and invigorating atmosphere, and, with the exception of a few days in the winter and a very few days in the summer, could enjoy one of the grandest climates on the face of the earth. Nevada has been kicked and spit upon by nearly every newspaper of any note published in California and east of the Rocky Mountains. She has been abused most shamefully by the men she has made rich, and of whom better things might have been expected. Every surplus dollar of the

UNTOLD MILLIONS.

She has produced has been invested in real estate and improvements in San Francisco, and not a few of the millions have found their way to New York, Paris, Texas, North Carolina, and, in fact, most every other place on the face of the globe but at home.

The short-sighted policy of the Central Pacific has had its influence on the State. Instead of encouraging immigration and pursuing a policy to build up a commonwealth that would, by right should, rank with the first in the nation, it has seemed to be their policy to give the lemon as hard a squeeze as possible in the attempt to get the juice out before it was gone.

It seems strange, too, for one settler in Nevada is worth three to the company in California, and still Nevada has been left to work out her own salvation, with millstones enough about her neck to have sunk and wiped from the face of the earth States that lay claim to much more than Nevada ever has. But, notwithstanding all these facts,

SHE STILL LIVES.

And has her being, and it is only a question of time when her varied field of possibilities will be taken advantage of by capital, and we shall have one of the best States in the Union. While Nevada has been pouring her millions into the lap of the world's commerce, she has asked nothing in return, and as a result got nothing and hardly maintained her self respect, but if her 45,000 people would shake the barnacles off their backs and proclaim to the world their intention of making a State, it would not be two years before the 90,000 inhabitants could at least be multiplied by three, who would, in a very short time, blaze the way to homes enough for a million prosperous people. But we are digressing. We started in to tell something about Southern California. San Diego is a place with a harbor, and nothing but

DRY PARCHED HILLS.

To draw from, and as a result, ships coming into the port loaded have to go out with rock or sand for ballast. A Boston syndicate spent several hundred thousand dollars in "boom times" in a dam across the Sweetwater river and great things were expected to come of it, and undoubtedly would, had not the title to the reservoir site been brought into controversy and a judgment rendered against the company for \$125,000, which was more than they have thus far seen fit to pay and the stored waters were drawn off until the reservoir is not a third full, and the only benefit it has been thus far to reclaim a few hundred acres of land in the Chollars Valley. San Diego

GREW LIKE A MUSHROOM.

In boom times, but they will have to dam another Sweetwater or two, get in some settlers and produce something before the now vacant buildings in the town are occupied. About the only attraction worthy of note is the Hotel del Coronado, situated on a narrow peninsula about three miles from the town. It is the property of the Coronado Beach Co., who have spent, and are still spending, a great deal of money to make the beach a popular watering place. The hotel proper is a mammoth structure, covering five or six acres of ground, and is perfect in every detail, and for a change of climate and surf bathing, Coronado Beach is a most delightful place for the man with an over-worked brain, or the invalid, to spend a couple of months. The surveyor's stakes every 25 or 50 feet from San Diego to Los Angeles, a distance of a hundred miles or more, give the traveler some idea of the magnitude of the boom, but none of the country passed through is hardly worth having, until Riverside is reached. There immense orange groves greet the eye, and a prosperous and happy people live. Although fabulous sums were offered for lands in and about Riverside during the boom, parties were willing to be refused to sell and were content with

the proceeds derived from the sale of the fine fruit produced, and as a result they have very fine orange groves, producing the choicest variety of that delicious fruit that pay from \$300 to \$800 per acre. Los Angeles is a fine city, full of beautiful homes for a population double the census just taken. But the city has a future, and is one of the prettiest places on the face of the globe. The place, as a whole, is not made up of a class of citizens who display that energy and go-ahead-astiveness that mark those where the seasons are more pronounced.

Los Angeles and the country immediately surrounding it has been greatly overestimated as an orange-producing section. The festive scale bug gets in its work, so the fruit is ill-flavored and smutty, and cannot be compared with the orange of Riverside.

In the San Gabriel valley nearly all the fruit produced lacks that succulence and delicious flavor so pronounced in the foothill fruits. Still, the importance of Los Angeles does not want to be overlooked, for it is most certainly a haven for the one-legged, cyclone-stricken people of the East to fly to if in need of absolute contentment and rest.

But the GAZETTE man returns to his home fully satisfied to take his chances in Nevada, where the climate is superior ten months in the year to that of Southern California, and where the lands will grow a greater variety of brain and muscle-producing food, which go to make up a thrifty and hardy race of people. In short, we would not give eighty acres of good land in Nevada for the whole Southern California if we were obliged to take our choice, and never leave it.

SUDDEN DEATH.

Of a Lady Well Known in Reno.

Referring to the death at San Francisco of Mrs. Romero, one acquainted with the family writes as follows: "Mr. Romero was recently transferred from the Secretaryship of the Spanish Legation at Pekin to the same office at the Legation in St. Petersburg. He and his wife and daughter were on their way to the latter city, and intended to visit their two sons at Carson. They arrived in San Francisco yesterday and went to the residence of Mrs. Aldrich, Mrs. Romero's aunt. Upon reaching the house Mrs. Romero died suddenly, without a struggle, from heart disease. She was Senator Stewart's second eldest daughter, and was a handsome woman. She was married ten or twelve years ago to a Mr. Fox, from whom she was divorced some years later, after the birth of four children, the youngest of whom died in Washington several years ago. The recent contest in San Francisco between the former husband and Senator Stewart over the custody of the children, in which they were awarded by the court to Senator Stewart, will be recalled by this sad event.

FATAL MINE ACCIDENT.

A Burning Shaft House Smothers Two Miners.

The Susanville Advocate of July 31st says: News was received here last Friday of an accident at Hayden Hill, in this county, by which two miners, Frank Auble and W. A. Dunbar, were burned to death or suffocated in a mine at that place. The details received were meagre, but it was learned that the men were at work alone at the time of the accident, which occurred last Thursday. After dinner they built up a fire in the shaft house over the mine to sharpen their picks, and it is thought they then returned to work without taking proper precautions with their fire. Some time in the afternoon the house over the shaft was discovered to be on fire, and an alarm was given. The timbers in the shaft were also burning, and as no adequate means for extinguishing the flames were at hand, it was simply impossible to attempt a rescue.

As soon as it was possible to descend the shaft the bodies of the unfortunate men were brought to the surface. The sad affair has cast a gloom over the community. Mr. Auble was a widower with two children depending upon him for support, and Mr. Dunbar leaves a wife and four children.

Articles of Incorporation Filed.

Articles of incorporation were filed in the Secretary of State's office at Carson last Thursday by George Russell, J. R. Bradley and W. S. Hill to form a company for dealing in land, cattle, water, etc. The capital stock is \$350,000, place of business Elko.

Progress.

It is very important in this age of vast material progress that a remedy be placed to the touch and to the eye, easily taken, acceptable to the stomach and healthy in its nature and in its effects. Possessing these qualities, Syrup of Eps is an one perfect laxative and most gentle diuretic known.

Wanted—\$5,000.

On or before September 1, 1890, F. Levy & Bro. want to raise this amount, and they do not want to do so, because they are making some very liberal offers. Read their new ad. and see how you can benefit yourself.

Independence Lake.

This resort appears to be the favorite this season for trout fishing. The hotel is again opened and newly furnished in all its departments, together with new and safe boats and moderate hotel bills. For quiet comfort and health, good sport in hunting and fishing and beautiful location, there is no place in the mountains more desirable.

My New Quarters.

My patrons are hereby notified that I have moved my cigar and tobacco business from the Coakes building to my new store next to John Sunderland's clothing department, where I will be pleased to see all in want of my line of goods. A. NELSON.

Don or Take Excursion.

Parties desiring tickets for the excursion on Sunday, August 3, are requested to purchase tickets at once. Round trip, \$1.50.

BREVITIES.

Local and General Intelligence.

Don't forget Hyman Fredrick's watch-club drawing this evening at his place of business.

In a few localities, light frosts are said to have been seen on Truckee meadows both Wednesday and Thursday mornings.

Send your orders for Independence lake trout to E. R. Morrill, Truckee. Lots of five pounds and upward sent by express, C. O. D.

At Blue Canon last evening freight train No. 20 ran into the pay-car shaking things up considerably. The paymaster is said to have had his hand badly cut.

The Caledonian picnic to be given at Treadway's park a week from to-day promises to be the event of the season, as nothing is being left undone to make it a complete success.

The Supreme court yesterday denied the writ of mandamus commanding the State Board of Examiners to publish the constitutional amendments voted upon at the last special election. The lottery sharks die hard.

Last evening a horse attached to a road car took a spin in a westerly direction on Commercial Row, but seemed to become tired after running a few blocks, and was captured on the railroad track where he attempted to cross.

By a reference to a card in another column it will be seen that General Orlando Evans will submit his name to the Republican Convention for the nomination for County Clerk. The General is well known in Washoe county and there is no question as to his competency.

The race track is now in good condition and every body is invited to take a drive over it whenever they feel like doing so, but they are requested to keep out about 15 feet from the "fence" as that space is reserved for the exercise of the runners and is unfit for use as a driving track.

PERSONAL.

Senator Foley left last evening for Monterey, Cal.

Sheriff Fellows of Humboldt county was in town this morning.

W. D. Tobey, the Carson wood man, was in town last evening.

John Sunderland returned this morning from a business trip to the Bay.

Colonel E. D. Boyle arrived from Truckee on this morning's 10 o'clock train.

Hon. P. N. Marker of Lovelock, was interviewing his many Reno friends yesterday.

A. E. Ross and family arrived last evening from Long Valley, all except Mr. Ross being on their way to San Jose, Cal., where the son and two daughters will attend school.

Perished for Want of Water.

On July 17, on the road from the Negras to the Muddy, and within three-quarters of a mile of the Muddy, says the Pioche Record, an unknown man was found dead. He evidently perished for the want of water and had been dead for some days. When found the body was very much decomposed and features unrecognizable.

Two four-dollar greenbacks were found on him and a double-barrel shotgun lay under his head. No letters or papers were found on him whereby he could be identified.

Friends Entertained.

Miss Agnes Hall entertained a number of her friends last evening at the home of her sister, Mrs. Geo. W. Baker. The evening was delightfully spent with cards and music, Mr. Balser distinguishing himself in his minstrel songs. After an elegant lunch the adieu was regrettably said. Among those present were the Misses Finlinger, Finlayson, Van Hallinger, Martin, Manning and Mrs. Lisle Jamison, Messrs. Lee, Moran, Pinniger, Reinsider, Moore, Rule and Van Hallinger.

Dangerously Struck.

The Carson Tribune of the 1st inst. says: A party of Danes, under the influence of liquor, had a row at Genoa yesterday afternoon, and one John Carstenson was tragically stabbed by Claus Lindquist. There are half a dozen deep cuts on Carstenson's body, evidently made with a dirk, and the physicians think recovery extremely doubtful. Lindquist was promptly arrested.

CHURCH NOTICES.

BAPTIST CHURCH—Services at 11 A. M. and 7:45 P. M. Sunday School at 12:25 P. M. Preaching by the Rev. John Barr morning and evening. All are welcome. Come.

THIRTY YEARS' PRACTICE.

A Letter from an Eminent Physician. MR. EDITOR: At the risk of incurring a proprietary preparation, I have a few words in favor of a new laxative principle. But first, how I came to discover it. A patient asked about taking Joy's Vegetable Syrup for constipation. I answered that it contained mercury or iodine I objected, and asked for the formula, which finding purely vegetable, and so mild as to be to my mind almost inert, I consented. Imagine my astonishment when perfect laxative action was reported. It has two great points. First, being purely vegetable, it is (unlike mercury) not cumulative in the system, being easily carried off by the digestive processes; and second, it is effective with a less quantity of the cathartic principle than has hitherto been attainable. It is in this respect ranks as a discovery, and approaches the ideal, viz.: the least medicine consistent with the greatest good. It harmonizes with natural laxative action and perfect safety, and should interest both the public and the profession. A COPY RECEIVED OF THIRTY YEARS' PRACTICE. San Francisco Examiner, March 10, 1890.

If you are suffering from constipation, or if you are not getting the most out of your life, you should try Joy's Vegetable Syrup. It is a purely vegetable laxative, and is the best remedy for constipation. It is sold in bottles of 50 cents and \$1.00. Write for a box.

Advice to Mothers.

Mrs. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for all disorders. Twenty-five cents a bottle.
